

The Dye's Deputation Journey

June-September 2024

We've been across so many states this quarter including South Carolina, Virginia, North Carolina, Kentucky, Texas, Georgia and New York. Due to driving

over 6,000 miles, we've had to take our van to the mechanic several times these past few months; it's even in the shop today as we write this, but we've been so blessed. Every time it has been fixed, and the Lord has provided the finances for it. God takes care of us every step of the way. Thank you for your prayers.

We are currently at 89.47% in our support raised and we are praising the Lord for it. Our prayer this month is to complete our support and be able to purchase our flights to Uganda. At this time, we are working on the paperwork, like visas and passports, we need for us to be headed to the field, and we are excited to be heading there soon. We've been so blessed these past few months through different churches;

some taking us on for support, and many of them giving us love offerings.

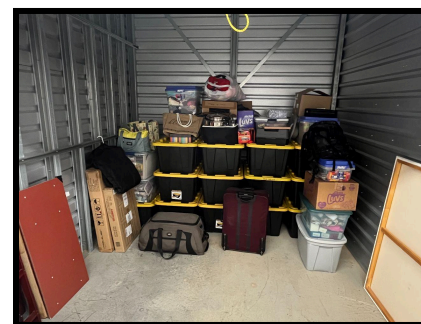

We were also blessed to see a soul saved in a church in Spartanburg, SC where Joel got to preach the morning

service. We're grateful that the Lord continues to use us during our deputation trail. Vivian was even able to teach a few times this past month to several ladies in different churches. What a blessing to be used by God! Please continue to pray that we receive our full support this month.

We are scheduled until November, and

we're praying the Lord allows us to leave for Uganda by the end of November this year. We are so close. Our main goal right now is to raise funds for a vehicle in Uganda and for furniture once we're there since we'll only be traveling with the minimum amount of things. We were also able to move all of our stuff out of storage so we can start sorting through it. It's definitely going to be a busy next few months.

PRAYER REQUESTS:

- ❖ Our van's A/C was fixed, but we're now hoping to get the power steering fixed.
- ❖ We got new supporting churches. Now we are praying to get our full support in the month of October.
